

World Change Starts with Educated Children.®

Dear Cam-Mai,

I am pleased to send a progress update on the Shree Nepal Shanti Secondary School School Room project in Nepal you are so generously supporting this year. As you will see from the attached photos, the school's construction is well under way, with community members pitching in regularly to help provide a new and improved learning environment for their children. The project is being closely monitored by a local School Construction Committee to ensure that we are providing the students with a safely constructed learning environment.

I hope you enjoy viewing the great progress being made by the community in partnership with Room to Read to further the education of their children. Thanks to your support, we are well on our way to establishing an additional 145 schools this year providing opportunity for so many young students! We look forward to sharing the Completion Report on the school including a photo of your dedication plaque by the end of the year.

All the best,

Clare
